

WIFI CASE User Manual

1. Hardware Interface

Turn on the switch, then the WIFI will active after 35s, and the blue led lamp will blink.

Charging Instruction:

Use the adapter 5V2A, the charging current 800MA~2600MA, 3.5H can charge fully.

Use the computer charging need 5 hours.

In the process of the charging, the led lamp show red, when the charging completely, the led lamp will go down.

TF Card

Allow users to move the photos from mobile devices to expansion in the TF card.

2. Software Install

We should download the “WIFI LINK” software from the APP Store in the apple official website, the install in apple equipment.

For example, the third or four generation iPad, iPad mini, iPad Air3, iPhone4/4s/5s, iPod touch3.

Note: App Store is the software which the apple equipment supports, that need not us to install it.

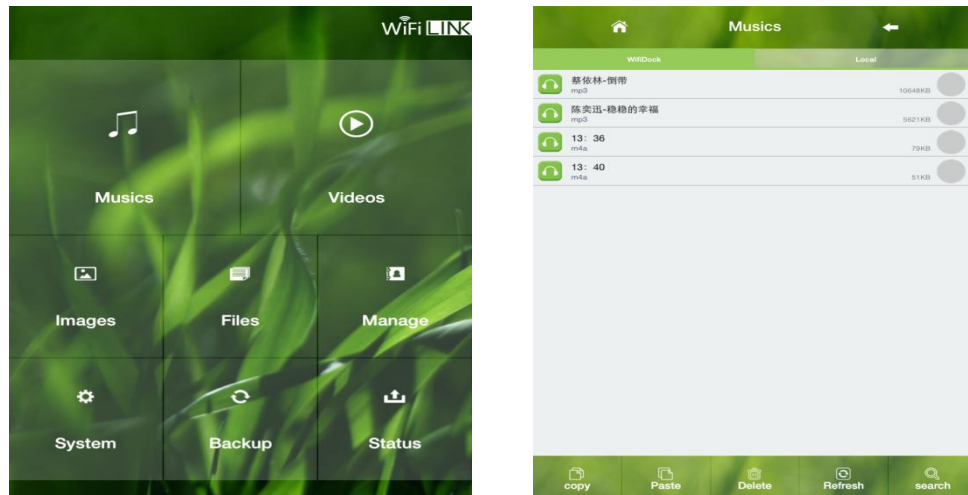

Open the OS equipment WIFI connection, and look for the HUALU 000X device, input the password “12345678”, the OS equipment can connect with WIFI CASE.

Make the iPad connect with the WIFI CASE, then iPad and mobile will show “WIFI DOCK”.

You can log in the administration console to use the music, video, document.

3. Run WIFI LINK

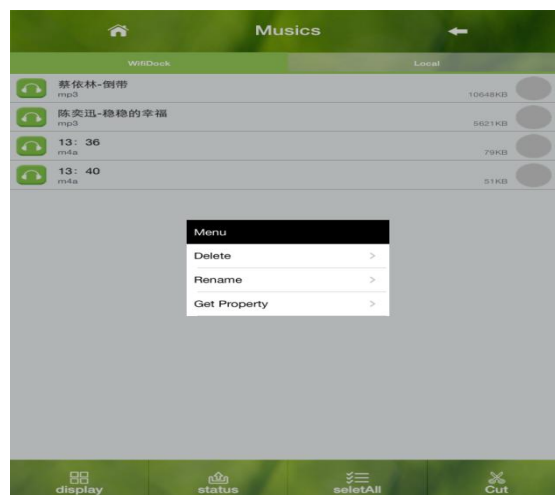

WIFI LINK as below, two screens can switch:

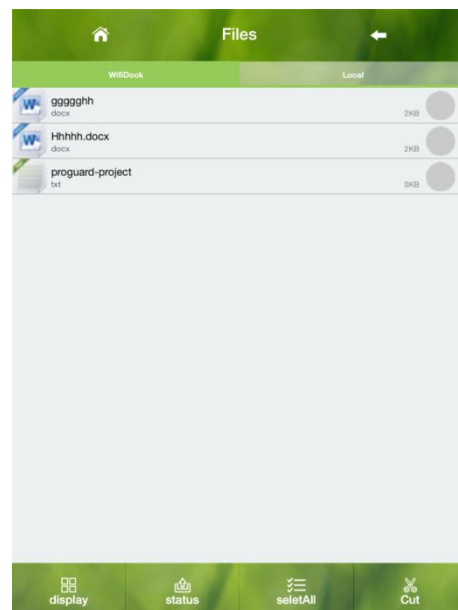

4. Function Induction:

Sharing resources, and support people access storage devices at the same time

Open any one tried to be as shown in the figure below, long press a certain file, the file can be modified (delete, rename, obtain property, sharing, etc).

- Music support 8 formats (wma、wav、mp3、aac、ogg、m4v、ape、flac)
- Video support 13 formats (avi、flv、f4v、mpg、mp4、rmvb、rm、wmv、asf、3gp、mpeg、mov、ram);
- Photo support 6 formats (png、jpg、gif、bmp、jpeg、tif)
- Txt format: txt、docx、pdf、xls、wps、doc、ppt、pptx、doxx、xlsx;
- At the same time can also to copy, paste, refresh, file search, selection, cutting, and other functions, and list and switch between tiled, slide around the bottom area can switch function (refer to the following picture) :

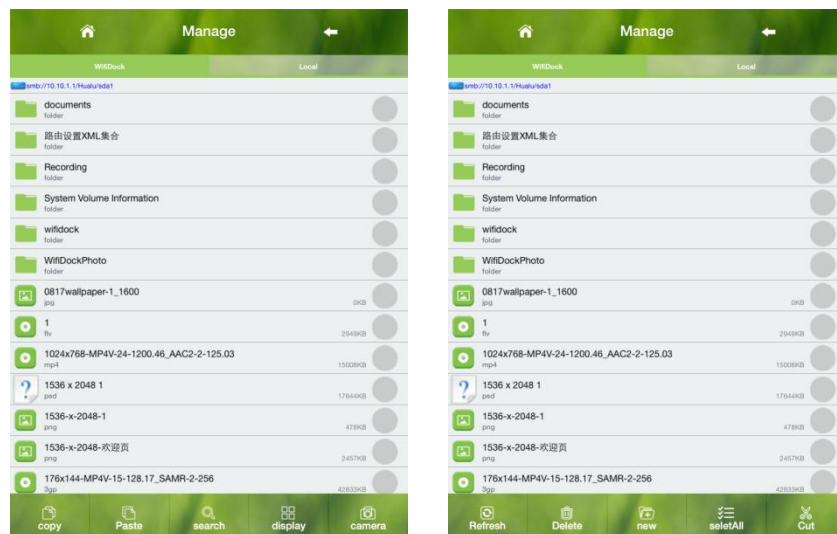

5. Files Management:

Manage all files in directory can view the first memory card;

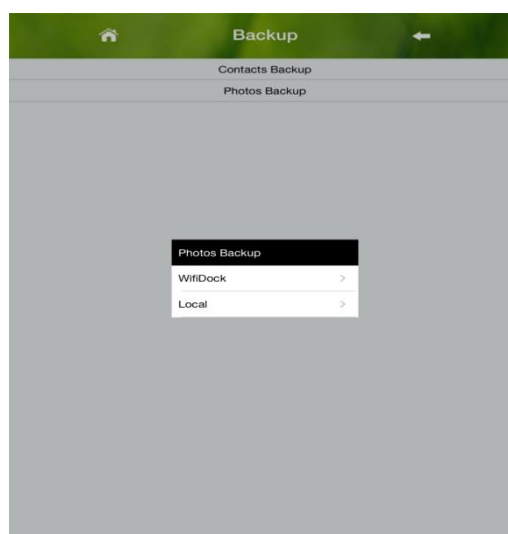

In the management of directory you can use the camera and photography function;

Specific function reference images (also need to slide around the bottom area) :

6. Backups

The device address book and pictures can be backup, save the path can be local or docking station

When using replication, copying files can progress through the phenomenon to see;

7. Hardware device using the environment

项目	规格
Operating temperature	0°C~40°C
Storage temperature	-10°C~70°C
Operating humidity	10%~95%,不凝结
Store humidity	10%~95%,不凝结

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause

harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment must not be collocated or operating in conjunction with any other antenna or transmitter.
